When a child is unsure of a ride we will allow them to hang out with a sponsor who is not riding or walk through the line and hang out with the sponsor and others who are not riding the ride. Every year we have children who choose not to ride certain rides. We will have a High School student who likes to ride very tame rides attend with us. Why do we do this event?

This is a great way to introduce elementary students to our Middle School Pastor. When I think about all the transitions for a child, this one is one of the hardest relationally. Entering middle school has a whole different set of insecurities. We want to help you and your child make this the most successful transition. This is one way we can help.
